TIDY UP YOUR GARDEN WITH STYLEOUT® WASTE BIN ENCLOSURES!

A tidy garden makes us very happy.
We admire the freshly moved grass, the tidy driveway and the blooming flowers.

But, what can we do if plastic waste bins mar all the effort we put into our garden?
The StyleOUT® waste bin enclosures are designed to discreetly obscures the waste bins and also prevent them from smelling.
If you also plant the roof, they are a nice addition to your already beautifully landscaped garden.

You can choose between four models and available sizes for 120- and 240-litre rubbish bins.
Give your house the final touch by choosing the colour of the waste bin enclosure that perfectly matches the rest of your garden.
